WHAT DOES THE CENSUS DECIDE?
- The number of representatives that Ohio can send to the US House of Representatives
- The amount of federal funding that the state and local governments receive from the federal government
- Level of need for community services

HOW IS OHIO’S FEDERAL ASSISTANCE DISTRIBUTED BASED ON THE CENSUS?
The Census influences how over $21 billion of federal funding is distributed in Ohio.

The 16 largest programs impacted by the census are:
- $11 Billion Medicaid
- $2.5 B Supplemental Nutrition Assistance Program (SNAP)
- $2 B Medicare Part B
- $1.4 B Highway Planning and Construction
- $565 M Title I Grants to Local Education Agencies
- $557 M Section 8 Housing Choice Vouchers
- $459 M Section 8 Housing Assistance Payments Program (Project-based)
- $431 M Special Education Grants (IDEA)
- $350 M National School Lunch Program
- $342 M State Children’s Health Insurance Program (SCHIP)
- $323 M Head Start and Early Head Start
- $204 M Foster Care (Title IV-E)
- $164 M Supplemental Nutrition Program for Women, Infants, and Children (WIC)
- $148 M Low Income Home Energy Assistance (LIHEAP)
- $130 M Child Care and Development Fund
- $122 M Health Center Programs

(Community, Migrant, Homeless, Public Housing)

WILL YOUR CHILDREN COUNT?

CHILDREN COULD BE LEFT OUT IN THE 2020 CENSUS: WILL YOUR CHILDREN COUNT?

The Census Bureau has been undercounting young children (under 5 years old) for decades

The 2010 Census missed over 2.2 million young children (4.6% of all young children in the nation)

Young Black and Hispanic children were missed twice as often in the 2010 Census as White children

WHY ARE SO MANY CHILDREN MISSED?

Nationwide, millions of young children live in circumstances that make them hard-to-count for the Census Bureau:

- Poverty Stricken Neighborhoods
- Large Complex Households
- Nontraditional Modern Family Structures

OVER 100,000 OF OHIO’S YOUNG CHILDREN COULD GO UNCOUNTED!

Ohio has the 10th highest number of young children living in hard-to-count census tracts

106,217 (15%) of Ohio's young children live in hard-to-count census tracts:

73% of Cleveland’s young children are at risk
52% of Columbus’s young children are at risk
46% of Cincinnati’s young children are at risk
38% of Toledo’s young children are at risk

THE COST OF UNDERCOUNTING YOUNG CHILDREN IN OUR COMMUNITIES?

Federal Funding for Head Start, WIC, and SNAP in Ohio is determined by the Census - an undercount could decrease our federal funding and shortchange our communities

Our communities are denied a full voice in policy decision-making

Our communities are deprived equal representation and access to vital public and private resources
By signing up, local governments can...

- Help ensure an accurate 2020 Census count
- Ensure local governments receive the federal funding they deserve
- Help communities prepare for future needs

The list of addresses that the Census Bureau uses to determine its count could be missing important information.

The Local Update of Census Addresses Operation (LUCA) is the only opportunity for tribal, state, and local governments to review and comment on the Census Bureau’s residential address list. LUCA gives local governments the chance to ensure all of their citizens are included in the 2020 Census.
Ohio’s WIC program is 100% federally funded.

In FY 2016, Ohio WIC served a monthly average of 234,719 women, infants, and children:
- Women: 55,306
- Infants: 73,934
- Children: 105,480

In 2016, Ohio received a federal grant of $158,432,731 for food and nutrition services, and an additional $58,476,845 for infant formula and infant foods rebates.

The Census is a primary source of data that is used to determine federal funding for the following programs:

- CHILD AND ADULT CARE FOOD PROGRAM (CACFP)
- NATIONAL SCHOOL LUNCH PROGRAM (NSLP)
- SUMMER FOOD SERVICE PROGRAM (SFSP)
- NSLP’S SEAMLESS SUMMER OPTION (SSO)

The Census influences how much money Ohio gets from the federal government to feed our children in need. An accurate Census count can help ensure that no child in Ohio goes hungry.
